ABSTRACT

In Presentation Only of ICONE-27, **submission of Extended Abstract is not mandatory**. The submitted extended abstracts are distributed to the participants electronically during the conference but they are not included in the official ICONE-27 proceedings that is published after the conference.

The format of the extended abstract is not rigid but it is basically the same as that for Technical Paper. Thus, the authors are requested to refer the template for Technical Paper to prepare the extended abstract. **The number of pages of the extended abstract should be one**. If the number of pages is two or more, it is not accepted (Only one-page abstract can be accepted).
